

**ATTACH A SHEET WITH DIAGRAM OF WELL SITE SHOWING DIMENSIONS**

Furnish a septic system plot or draw the proposed construction site with dimensions showing the water well, direction of slope, distances to buildings and property lines, sewer lines, all septic system components including septic tanks and seepage fields, and other sources of contamination, e.g., abandoned wells, storm water dry wells and underground storage tanks. Indicate distances to community water supply, if available. If there is an existing well on the property, indicate location and status.
